Frances is the small daughter of Mr. and Mrs. J. Stewart Parker, 1620 South Cheyenne avenue, and is the only child in this home. She is the granddaughter of Mr. and Mrs. Howard H. Parker of St. Louis, formerly of Tulsa.

DIRECTS SERVICE AT SAND SPRINGS

Rev. L. G. Snively, Dedicator and Evangelist, Has Charge Sunday

Rev. G. L. Snively, Christian evangelist and dedicator has arrived at Sand Springs to arrange for the service to be given at church Sunday. "We shall have services at 9:30, 10:30, and 7:30 on Sunday," said Reverend Snively. "At the morning services we shall substitute a chemically illustrated address on 'The Fundamentals of Our Faith.' Judge Goodey will speak on 'The

old Days and the Old Ways' at the 10:30 services and in the evening the topic will be 'The Immorality and Home of the Soul.'

"At noon there will be free luncheon for all those who attended the 10:30 meeting," said Reverend Snively. An overflow meeting for the young people will be held in the Methodist church where there will be no service because of the exercises at our church. There will be readings, musical numbers and dialogue for the young people at this meeting."

Reverend Snively, who dedicated the old and new Christian churches of Tulsa, has a record of serving in more than two Sundays in the past year in church work. He has been to Denver, Colorado, and Houston, Texas, during the past two weeks and will go to Tennessee after the program is completed at Sand Springs.

FIND NEW USE FOR CLAY

Now it is Made Into Needles to Play Phonograph Records.

There seems to be no end to the variety of phonograph needles. Playing records with a chip of a brick to the likes of phonograph "needles" and the invention of an Iowa man, Mr. Alton D. Child in a recent article in *The Scientific American*.

It is asserted that the needle of clay will play with very clear tone and with little surface noise at least 20 times.

The needles are made from a dark-colored, nonplastic material, shale. As the shale is practically no grain and no grit is present, it is found that a very high polish is taken on where it comes in contact with the record. In making the needles the shale is cut from a bank in sections which are as nearly square as possible and each piece measures about four inches. The shale is brought from the clay banks and the sections are stored in sand coated with paraffin. These needles are to keep the air away from the shale when in a moist condition.

The sections of shale are then placed in an electric drier, where they are dried very slowly. After being thoroughly dried each section is cleaned in a vice and is run through a saw which cuts it into fine, rounded strips three and one-half inches in length and one-half inch wide.

The sections are then laid on a pallet and are fed automatically into a needle machine where they are pushed into the head, when they come in contact with a grinding wheel and 1000 revolutions per minute. The grinding wheel turns each pencil in a perfectly round need.

In order to use as if Elihu Root fully possessed of all his faculties for the ensuing four years.—Ohio State Journal.

SAYS MEXICO IS NOW OPEN TO ALL

President Denies Tendency to Extreme Radicalism.

By LOUIS N. KIRBY
MEXICO CITY, Nov. 6.—More than 50 workers have been quietly settled in Mexico in the past three months. President Adolfo de la Huerta told 200 members of the El Paso and Houston chambers of commerce here yesterday, even the visiting American business men at the national palace.

The successful settlement of so many workers, he said, would have been difficult in the United States, but is even more difficult in Mexico, where labor has made little advancement since 1912. President de la Huerta denied reports in some newspapers that his government leaned to extreme radicalism. What he wanted, he said, was to see Mexican labor enjoy the advantages won by workingmen in the United States.

He said that it had never been the purpose of his government to urge advancement of wages beyond what industries could bear from their reasonable earnings, but that it was the desire of the government to see both employers and workers prosper. All Are Welcome.

For this reason, said President de la Huerta, Mexican workers welcome the foreigners who came to develop business and industry, and those who came to share in the riches of Mexico. The same cordial welcome, he said, was extended to the wage earners of America, as Mexico is a rich and fertile field.

In beginning his address Mr. de la Huerta said that it was a pleasure to address such a distinguished gathering of Americans and expressed hope that the United States and Mexico would develop closer and more friendly commercial and political relations.

Representatives of both the El Paso and the Houston chamber of commerce informed President de la Huerta that Texas was exerting itself toward the bringing about of the recognition of the present government of Mexico. Mr. de la Huerta was presented with a long telegram sent from Mexico City by the El Paso chamber of commerce to President Wilson at Washington, urging the immediate recognition of the de la Huerta administration. This was signed by more than one hundred of the El Paso business men.

Several addresses were made. All of the American speakers expressed confidence in the present administration and the Mexican administration, which is to follow. The speakers told of hospitable treatment in all of the cities they visited in Mexico.

McGraw Offers Actor \$20,000 to 'Forget'

It is reported in New York that John McGraw, manager and part owner of the Giants, has offered John C. Slevin, well-known actor, \$20,000 as settlement out of court of any cause of action Slevin might have against him. Slevin was severely beaten up mysteriously after he and McGraw had been at the Lamb's club for a social evening.

Meets Severe Reverses in Idaho; Governor Candidate Badly Beaten.

Smashed in Minnesota, Too.

BOISE, Idaho, Nov. 6.—The non-partisan league suffered a severe reverse in Idaho in Tuesday's election. The league's candidate for governor, D. Fairchild, carried only two counties and his majorities in these were not so large as those obtained in many other counties by the republican candidate, W. E. Davis, who sought re-election. Two years ago the non-partisan league captured the entire democratic political machinery and students of politics aver the democrats in retaliation flocked to the republican standard in such droves that Gov. Davis was given a majority of nearly 20,000 over his

opponents. The non-partisan league's candidate for state auditor, W. E. Davis, was defeated by the republican candidate, W. E. Davis, who sought re-election.
